

## **Working Families**

- I support paid family leave, paid sick days and paid vacation days for all workers in our country.
- I support measures that will encourage, incentivize and require public and private employers to enact flexible workplace practices for wage and hourly, professional, and managerial employees, to accommodate working parents' need to play a key role in the development of their children.
- I support replacing the federal minimum wage structure with a living wage structure, which would set the minimum wage in a locality that will allow a minimum wage worker to afford basic housing in the locality with 30% of their income or less.
